STATEMENT OF OBJECTS & REASONS

The Limited Liability Partnership (LLP) Bill provides a new form of business structure, which would fill the gap between business firms such as sole proprietorships/partnerships, the liability of whose partners is unlimited, and the companies governed under the Companies Ordinance 1984, whose members enjoy the benefits of limited liability.

The proposed law also provides an alternative form of business organization, which has the flexibility of a general partnership and would avail all the advantages of a limited liability company. Besides, the right of a partner to a share of the profits is transferrable either wholly or partly. However, the transfer of any such rights will not cause dissolution of the LLP. The law also provides the conversion of firms (including private companies) into LLPs. The LLPs would be taxed as a partnership, but will have the benefits of being a corporate, or more significantly, a separate juristic entity having perpetual succession but distinct from its partners.

The specialized features and unique requirements of Limited Liability Partnership necessitate the promulgation of an independent and comprehensive piece of legislation.
