NATIONAL ASSEMBLY SECRETARIAT

22. ***Dr. Mahreen Razzaq Bhutto:**
(Deferred during 8th Session)

Will the Minister for Energy (Power Division) be pleased to state:

- (a) details of the rate of electricity and the rate of each chargeable charge under different heads for a consumer who consumes 200 units and separately for a consumer who uses 201 units;*
- (b) whether it is a fact that the amount of the bill substantially increases for the consumer who uses 201 units compared to 200 or less;*
- (c) whether it is also a fact that if a consumer consumes 201 units or more in a single month, they are not entitled to the benefits of the rate for less than 200 units for the next six months, even if they use less than 200 units in those months;*
- (d) if so, what is the rationale behind this approach to charging electricity bills in this pattern and is not it unjust to consumers;*
- (e) if so, what corrective measures are being taken to end this injustice and formulate a policy to give maximum benefit to those consumers who consume less than 200 units of electricity in a particular month?*
